Accessibility for All
by the Disability and Health Program

Training Module: Disability for Information and Referral Specialists
The National Association of States United for Aging and Disabilities (NASUAD) has recently shared the release of a new training module on disability for Information and Referral specialists on the NASUADIQ online learning center. The training module provides participants with an overview of key issues relevant to providing information and referral/assistance to individuals with disabilities. The module covers many topics including disability awareness, effective communication, services and trends in service delivery, resources, disability rights and advocacy and empowerment. The training concludes with a self-administered quiz.

Measuring Access to Opportunity
The Annie E. Casey Foundation recently released the KIDS COUNT data snapshot highlighting the Supplemental Poverty Measure (SPM), which captures the effect of safety-net programs and tax policies on families. By using the SPM, researchers have determined that the child poverty rate has declined from 33% to 18% as a result of these programs and policies.

Community Health Status Indicators Launch
The CDC released the updated Community Health Status Indicators (CHSI) online tool that produces a public health profile for all 3,143 counties in the United States. Each profile includes key indicators of health outcomes, which describes the population health status of a county and factors that have the potential to influence health outcomes, such as health care access and quality, health behaviors, social factors, and the physical environment. To access CHSI, visit www.cdc.gov/communityhealth.

Disability Rights Florida Annual Report Now Available
Including success stories, financial information and updated contacts, the Disability Rights Florida 2014 Annual Report is now available. You can find it by following this link: http://www.disabilityrightsflorida.org/documents/Disability_Rights_FL_2014_Annual_Report.pdf

Jay Weiss Institute for Health Equity Community Resource Guide
The Jay Weiss Institute for Health Equity at the Sylvester Comprehensive Cancer Center has created their 3rd edition of the Community Resource Guide. The guide provides information for anyone seeking assistance with a wide range of health and social services throughout Miami and surrounding areas. The guide is available at the following website:
Video-On-Demand for Students with Visual or Hearing Disabilities

The US Department of Education announced on March 16th the availability of free, video-on-demand children's television programming for thousands of students who are blind, visually impaired, deaf or hard of hearing. Dozens of children's and family TV episodes may now be viewed online featuring closed captioning and descriptions through the Education Department's Accessible Television Portal Project. Among the shows: "Ocean Mysteries," "Magic School Bus," "Bill Nye the Science Guy," and more. The portal is part of the department funded Described and Captioned Media Program (DCMP). To view the content, teachers and school personnel, parents, and other professionals working with qualified students can visit www.dcmp.org and apply for access to the portal.

Community Resilience PSAs

The Florida Department of Health Bureau of Preparedness and Response Community Resilience Unit developed four public service announcements in English, Spanish, Creole, and American Sign Language (ASL). Posted on their YouTube site, the videos address emergency preparedness for parents of children with medical needs, persons who are Deaf/Hard of hearing, and persons who may need special needs shelter in an emergency. More information is available by clicking here.

White House Honors Teen with Cerebral Palsy

This year's White House Student Film Festival will feature a documentary about the efforts of a student with cerebral palsy to make his high school more accessible. The documentary about Archer Hadley, 18, is one of 15 that is being honored by President Obama. To read more about Archer and to watch his film, click here.

Sexuality Education is Vital for Teens with Intellectual Disabilities

It is common for parents to request help with sexuality education for their pre-teen and teenage children. However, parents are truly at a loss when their child has an intellectual, cognitive, or developmental disability. Anxiety about how much is enough and how much is too much can plague parents and teachers alike. Sexuality education often stay on the back burner, but ExpertBeacon is providing steps for parents and teachers to help. Click here to read more.

AAIDD has also created a YouTube video on Social Development and Sexuality Across the Lifespan.

Education for Lifelong Mental Health Series Factsheet

These factsheets were designed for people with mild intellectual disability to learn about mental health issues. They can also be a resource for mental health professionals, family caregivers, and support professionals to educate and raise awareness of mental health concerns. Usual treatment and strategies for maintaining mental health are highlighted. Future factsheets will feature coping with stress, and grief.

Guardianship for Individuals with Intellectual Disability:
Education For Lifelong Health Series
Factsheets

This series of factsheets were designed for people with mild intellectual disability. They can be used to help raise awareness about serious health conditions that become more common with increasing age. Usual treatments and prevention tips are also highlighted.

My Health Passport

FCIC’s My Health Passport is a health advocacy document that describes the unique supports and preferences of an individual. It is designed to be shared with many types of healthcare providers, in clinic and hospital settings, especially for those who are not very familiar in providing care to individuals with intellectual/developmental disabilities. Hard copies of My Health Passports are currently available, and can be ordered free of charge by contacting Dr. Liz Perkins or (813) 974-7076. The forms are also available for free download.

CDC Public Health Grand Rounds Webinar: Addressing Preparedness Challenges for Children in Public Health Emergencies
Now Archived!
This webinar discussed strategies to address the unique vulnerabilities of children in every stage of emergency planning. Presenters also highlighted the strong progress that has been made in pediatric disaster readiness as well as the collaboration that is still needed between public health professionals and pediatric care providers. Both the video presentation and the slides are available by clicking here.
CDC Study Benefiting Children with ADHD

The first national study to look at behavioral therapy, medication, and dietary supplements to treat attention-deficit/hyperactivity disorder (ADHD) among children ages 4-17 shows that less than one half of children with ADHD were receiving behavioral therapy in 2009-2010. The Centers for Disease Control and Prevention (CDC) study, “Treatment of Attention-Deficit/Hyperactivity Disorder among Children with Special Health Care Needs,” published this week in The Journal of Pediatrics provides a snapshot into how ADHD was treated just before the release of the 2011 clinical guidelines for treatment of ADHD from the American Academy of Pediatrics (AAP). Read more here.

Awards and Scholarships

Personal Learning Scholarship Accounts

The Personal Learning Scholarship Accounts (PLSA) is a new program that helps families customize educational plans for their children with special needs. To qualify, students in kindergarten through 12th grade must be diagnosed with one of the following: autism, cerebral palsy, Down syndrome, Prader-Willi syndrome, Spina bifida, Williams syndrome or an intellectual disability (severe cognitive impairment). Also, students deemed "high risk" due to developmental delays and not older than 5 on September 1 may be eligible for the year they are applying. The PLSA allows parents to direct scholarship funds toward a combination of approved programs and providers they think best meets their children's unique needs. These include approved private schools, therapists, specialists, curriculum, technology- even a college savings account. They are currently accepting applications for the PLSA for the 2015-16 school year. Scholarships are awarded on a first-come, first-served basis. Apply for the PLSA for the 2015-16 school year today! Thanks to FAAST for running this information in their newsletter.
